Med 121-23-1

Sir,

I have the honour to state that the necessity for strengthening the establishment of the offices of District Medical Officers of Districts had been brought to the notice of Government as far back as June 1919 and after much discussion, in your office letter No.G.27331/Med.39-19-14, dated 12th June 1920, the proposals were ordered to be renewed the next year.

The years which followed, however, happened to be years of great financial stringency during which all attention had t o be concentrated in effecting retrenchment in expenditure and proposals for the increase of establishment involving extra expenditure could not be submitted. As the need for improving the efficiency of the work of the District Medical Offices has become very pressing, I beg to submit a proposition for the revision of the District Medical Offices with a request that it may be kindly accepted for consideration as a special case.

The necessity for the revision of the establishment of District Medical Offices has been thoroughly discussed in the correspondence first referred to and there is hardly any need to reiterate the points therein submitted to Government. The volume of work in these offices is bound to increase with the increase of medical institutions and the standard of quality of work expected is also rising every year. If

If there was need for increasing the number of hands and also their pay five years ago, the need is more today. No other District Officer has an establishment of less than four Clerks. But my proposals have been made as modest as possible, by limiting the establishment to only two Clerks for each office.

It is proposed to fix the pay of the Head Clerk at Rs.40 and of the 2nd Clerk at Rs.30/- per mensem in each of the Bangalore, Mysore, Shimoga and Kadur Districts, where, work is rather heavy and at Rs.35/- and Rs.25/- respectively in each of the other four Districts.

The number of Peons attached to these offices is at present 11, distributed as shown in the margin. It will be seen that the District Medical Officers, Mysore, Kadur, and Shimoga have two Peons each, while the others have a single menial. The allowance of two Peons to the District Medical Officer of Mysore is justifiable on the ground t hat his office which is situated far from the Medical institution (Epidemic Diseases Hospital) of which he holds medical charge ought to be left one peon when the other peon is taken by the officer whenever he goes out on tour. For similar reasons, the District Medical Officer of Bangalore also ought to be allowed an extra peon. The Kadur and Shimoga District Medical Officers may be allowed only one peon each like the others.

The proposal which ~~xi~~ involves an extra cost of Rs.3972/- per annum may kindly be sanctioned at an early date and provision therefor ordered to be made in the Budget for 1924-1925, now before the Government, so that the
